

Quelle heure est-il ? (leçon 1 exemple 1 h 35)

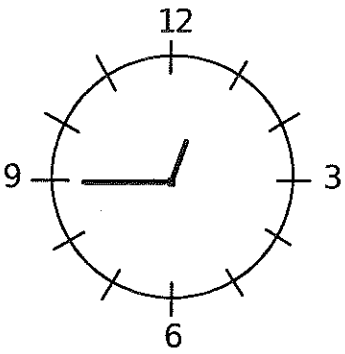

4h

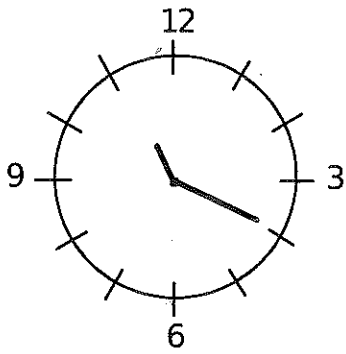

9h 30

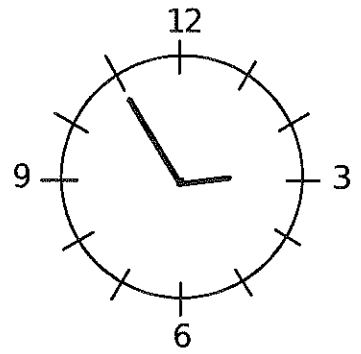

6h 15

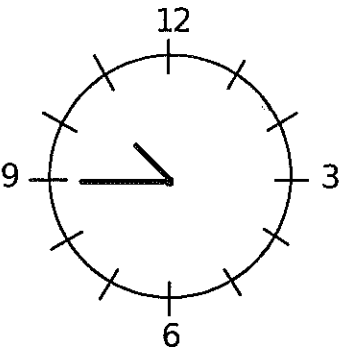

0h 45 (12h 45)

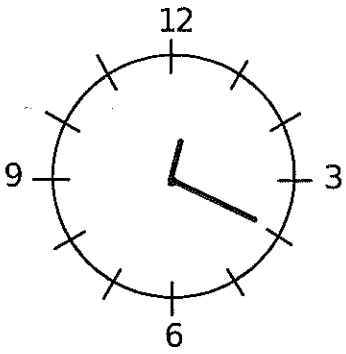

11h 20

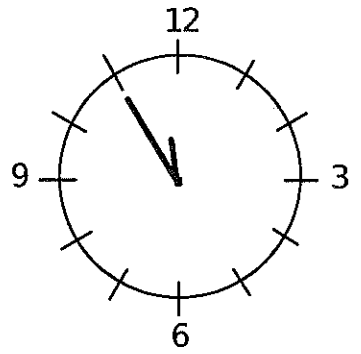

2h 55

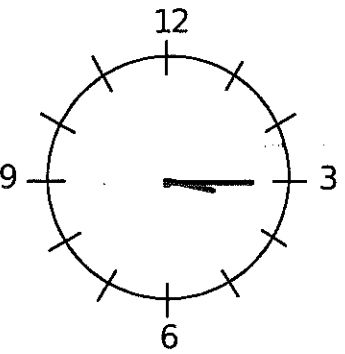

10h 45

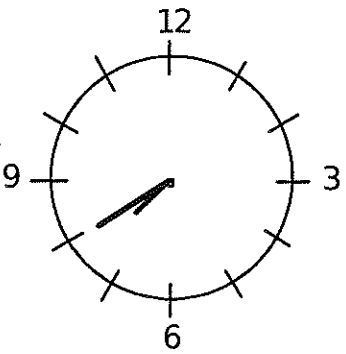

0h 20 (12h 20)

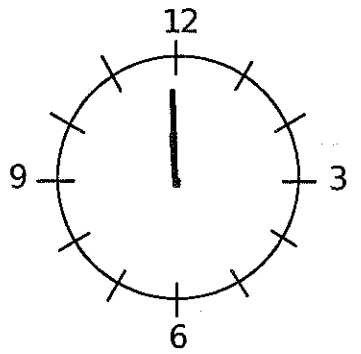

11h 55

3h 15

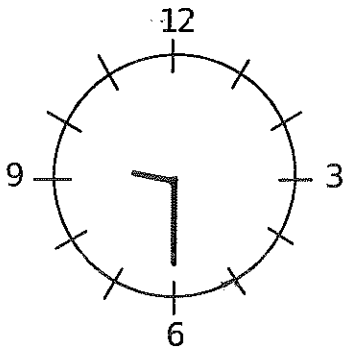

7h 40

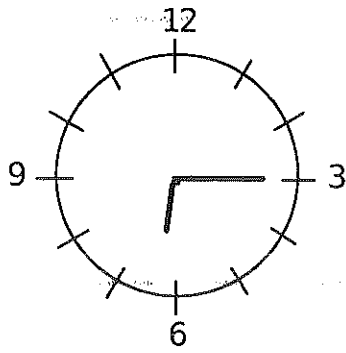

0h (12h)
(midi / minuit)

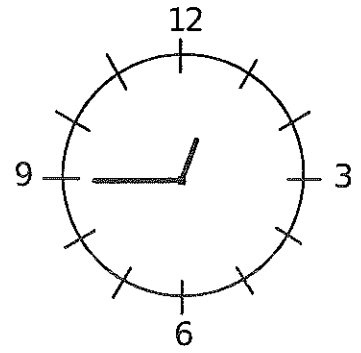

Quelle heure est-il ? Leçon 2, heure usuelle (exemple 3 h et quart)

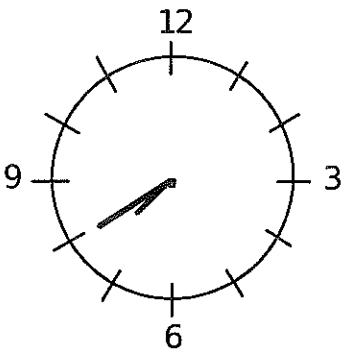

9 et demie

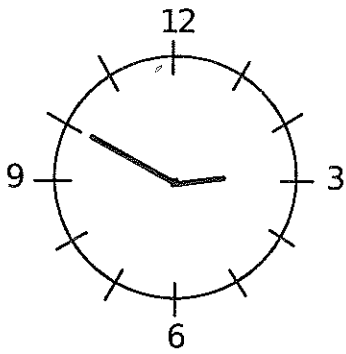

6 h et quart

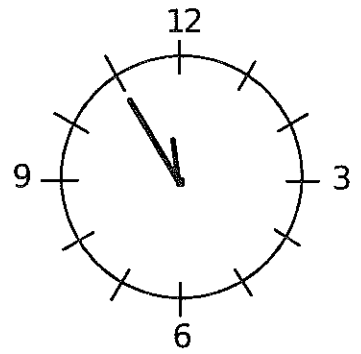

1 h moins le quart

8 h moins 20

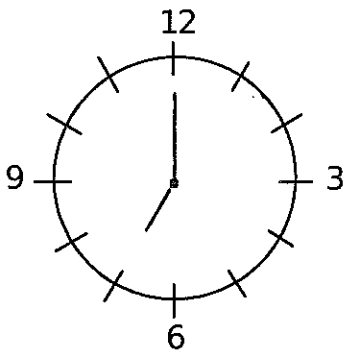

3 h moins 10

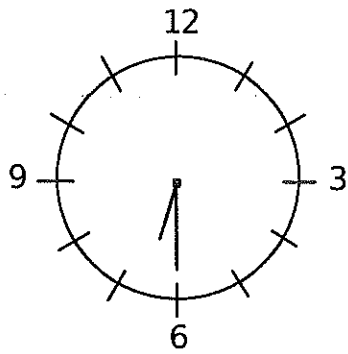

midi (ou minuit)
moins 5

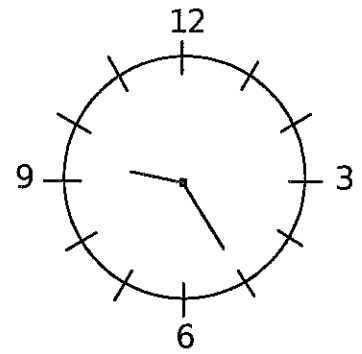

Place les aiguilles

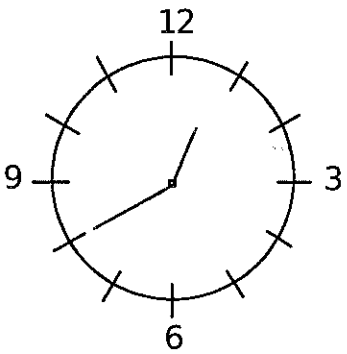

7 heures

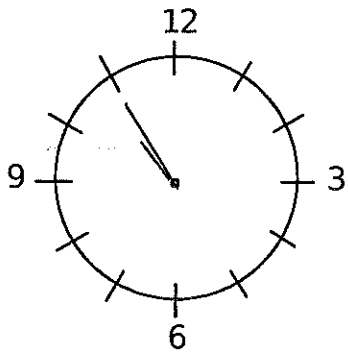

6 heures et demie

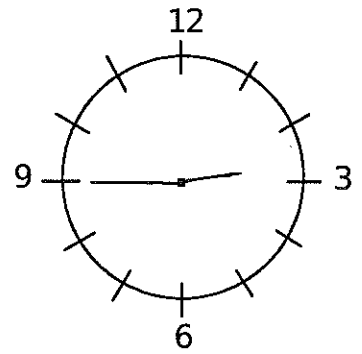

9 heures 25

10 heures 40

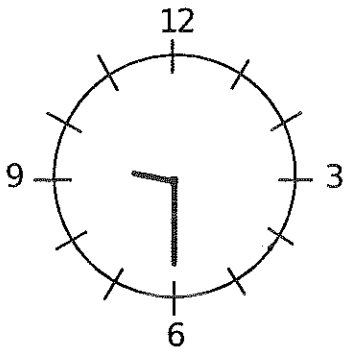

11 heures moins 5

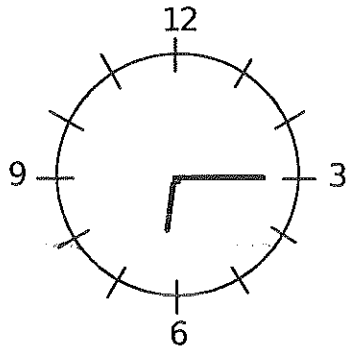

3 heures moins le quart

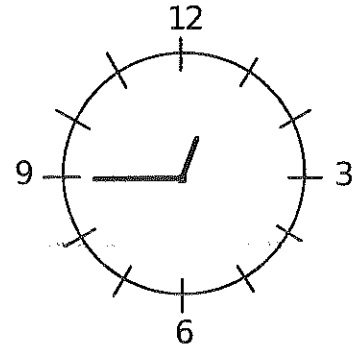

Quelle heure est-il ? Leçon 3, heure de l'après -midi (exemple 13h 45)

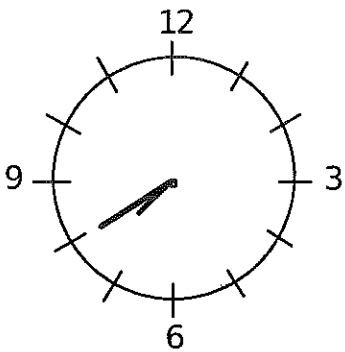

21 h 30

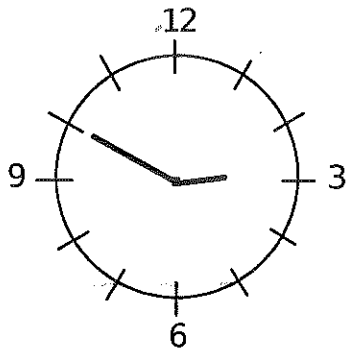

18 h 15

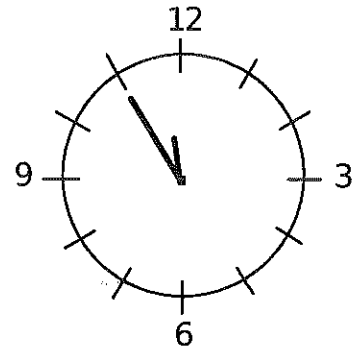

12 h 45

19 h 40

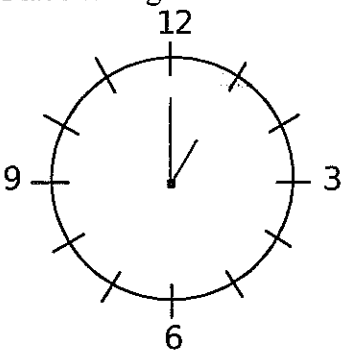

14 h 50

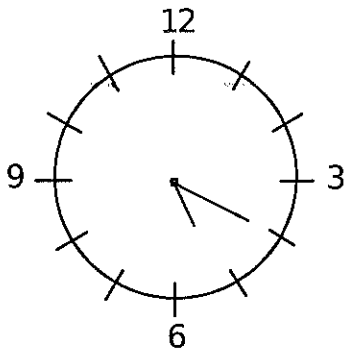

23 h 55

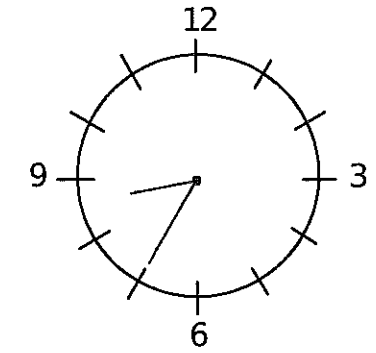

Place les aiguilles.

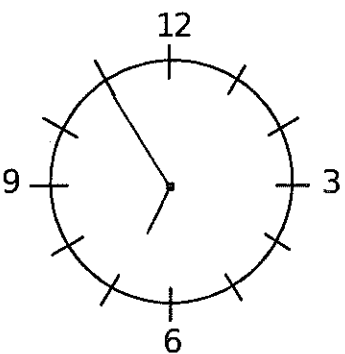

13 heures

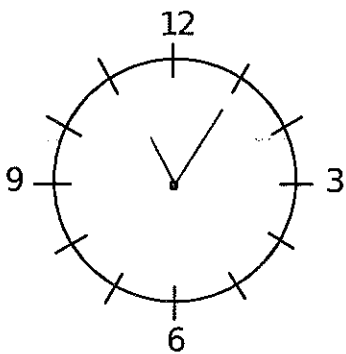

17 heures 20

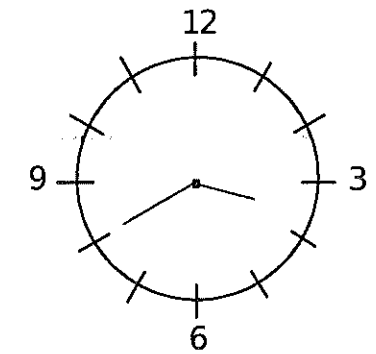

20 heures 35

18 heures 55

23 heures 05

15 heures 40
